Propane Cap Enrollment Form

The Ford Propane Cap program allows you to lock in at a pre-set Cap price without the need of paying any money out of pocket prior to the beginning of the season, except the enrollment payment of $75. It guarantees that your propane price will not exceed the given Cap Price from October 1st 2020 through March 31st 2021. If the price of propane on that given day is lower than the Cap price you will receive the lower price, but will not go over.

Cap Price: $1.749
